

Organisational Wide Policy

- Org 73 - Information Communication Technology - Network User

Policy Statement

The safety and integrity of Information and Communications systems and the information contained within them is essential for the provision of services and ensuring business continuity can be maintained. Beechworth Health Service will have systems in place to provide this protection.

Applicable to: All staff and volunteers

Process

SYSTEM ACCESS

- All health service staff will be provided with access to BHS ICT systems in accordance with this policy.
- Executive staff will authorise the applications and privileges for users.
- All users will be provided with an email address
- A new user will only be granted access to the system when the BHS ICT Support or, if they are unavailable, the HRHA Help Desk help.desk@hrha.org.au has received from:
 - Executive Staff- a signed authorisation using the *New User* form for either a new user or an extension/change of access for an existing user.
 - The user - a signed copy of the BHS ICT user policy form, duly signed by their executive, agreeing to abide by the network policy

Any alterations to existing security levels must be requested by the relevant executive member who will then forward the request to the BHS ICT Support or if they are unavailable, the HRHA Help Desk help.desk@hrha.org.au for actioning, with a copy to the BHS ICT Support.

Logons - A username & password are required to uniquely identify a user to the computer systems and to activate authorised access rights. The user name will be issued by the BHS ICT Support or the HRHA Help Desk.

- From time to time, non - Health Service employees will be granted access to systems as defined by executive staff.
- On completion of a session of use on any computer, users are required to log out of the network and leave the computer in a clean and tidy form ready to be accessed by the next person.
- The user who is logged in remains accountable for the use or misuse of ICT systems under their user name.

PASSWORDS

- The system may force users to change their password on occasions.
- Passwords are to be treated as confidential and as such are not to be shared by any other person or displayed in any public area. Sharing of passwords may result in disciplinary process against the owner of the password and the non-owner user of the password.
- Lost or inoperative passwords will be reinstated by the HRHA Help Desk or BHS ICT Support.

- Any breaches of security are to be logged as an incident on VHIMS. The HRHA Help Desk may be asked to assist in investigations and to isolate the affected area. Potential viruses or unauthorised access should be treated as a matter of urgency.

CONFIDENTIALITY

- Confidentiality is as per Privacy Policy, No. 57 and Employee Code of Conduct, No. 55, of the Health Service's Organisational Wide Policy Manual.

SOFTWARE

- The Health Service in collaboration with HRHA determines the standard suite of software used across Beechworth Health Service ICT systems.
- Software not owned or licenced by the Health Service or HRHA will not be loaded onto the network.
- Software other than the standard suite **must** be evaluated by HRHA prior to being loaded onto any hardware or the network to assess suitability and to ensure that there will be no adverse effect to the network.
- Any documents created by users should be stored in only one location. If the document is relevant to the work of the department then this document should be stored in the Shared Drive for the department which is secure and protected from non-authorised access.
- Only persons who are required to access medical records as part of their employment will have access granted for electronic medical records.
- Under no circumstances are documents to be stored on the local or C drive of a workstation as this jeopardises confidentiality, security and redundancy.
- Users should make every effort to ensure that files or information loaded into the network system (eg from email, USB, CD) are not at risk of containing a virus.

EMAIL and INTERNET ACCESS

- All authorised ICT users are given access to email
- Email must not breach any relevant legal and ethical standards and is made available to support staff in their employment.
- Beechworth Health Service Code of Behaviour Policy 55 applies to the use of email communication.
- Access to the internet is for the purpose of supporting their employment.
- Inappropriate access in working hours for non-work related information may result in disciplinary action.
- The intentional accessing of inappropriate & restricted sites, for example sites containing sexually explicit or pornographic materials are strictly forbidden. The intentional accessing and/or distributing of such materials across the Health Service network are not permitted. Users found to be in contravention of this policy will face disciplinary procedures.
- The user of internet browsing and email services, provided by Beechworth Health Service, will be held accountable for the publishing of any unauthorised and / or inappropriate material. Such actions may also evoke disciplinary procedures.
- The Health Service reserves the right to monitor the use of any user's internet usage.
- The Health Service reserves the right to monitor email exchanges.

PRINTING

- A user shall ensure that any printout from a computer system that contains confidential information remains in their custody until the printout can be disposed of appropriately.
- Printouts must not be left where unauthorised staff can access them.

ADDITIONAL REQUIREMENTS

- If additional software and or hardware other than the Standard Operating Environment of BHS are required, this should be brought to the attention of the unit/department manager.

- The person seeking additional software/hardware will be required to provide documentation explaining the need, the deficit that appears to be present and the solution that they suggest.
- The manager will review the request and if supported they will seek approval from the relevant Executive who will liaise with HRHA and provide them with any specific information they request.
